

2012 Proposal for Jim Peplinski's Leasing c/o Service Master

The following is the proposed pricing for Service Master, client of Jim Peplinski's Leasing based on 20 (twenty) units nationally, with the potential for more via the 100 Service Master franchisees (approximate) across Canada. This 2012 proposal submitted on Tuesday June 5th is valid for 60 (sixty) days.

The request from Service Master is to paint exterior of vehicle (typically, from factory white to "Service Master Yellow" - Paint code SW56356) in a "fleet finish" style so that with doors and panels closed, the original factory colour will not show.

On behalf of its franchisees, Maaco Systems Canada Inc. (MSC) is proposing the pricing for the following two options:

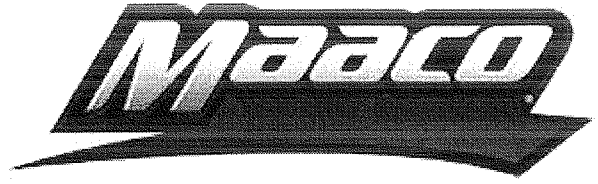

- A) Paint exterior of vehicle in a one colour single stage Sherwin Williams finish.
- B) Paint exterior of vehicle in base coat/clear coat finish, single colour Sherwin Williams finish.

Should the client request the painting of the vehicle's jambs and sills, the additional pricing is provided for each applicable option.

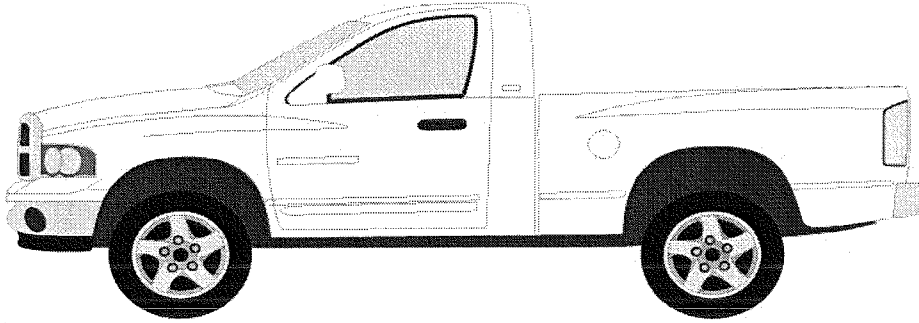

This account is to be billed to Jim Peplinski's Leasing (JPL), ServiceMaster c/o Maaco Systems Canada Inc., with:

- VIN number
- Unit number (if known), License plate number (if plated)
- Year/Make/Model of vehicle

The price is valid for 2 years of date of finish and bears a 3 year warranty against fading or chalking of the finish.

Regular Cab Pick Up Truck (8 foot box)

(May not be exactly as Pictured)
